

Remarks:

(a) By the above amendment, Applicant has corrected errors in the previous version of the specification.

(b) In response to the Examiner's restriction requirement, Applicant hereby elects Invention II.

(c) The Draftperson's Patent Drawing Review comments are noted and are corrected with new drawing figures submitted herewith.

The left margin of Fig. 24A has been increased to at least 2.5 cm.

The lines, numbers and letters of all the drawing figures have been changed to be uniformly thick and well defined, clean, durable, and black.

The numbers, letters and reference characters of all the drawing figures have been changed to be at least .32 cm in height.

In order to comply with the latter requirements, some parts of the original drawing figures have been re-positioned or omitted so that the amended drawing figures will be able to fit within the required page margins. In particular, the drawing blocks, lines and figures appearing after 28 on the time axis of the original FIG. 21 have been omitted in order that the amended FIG. 21 will be able to fit within the required page margins.

Other minor mistakes in the original versions of the drawing figures have been corrected to be consistent with the references to the drawing figures in the Specification. In particular, in FIG. 24A, "PRE-RUN-TIME SCHEDULING SYSTEM" is changed to "PRE-RUN-TIME SCHEDULING SUBSYSTEM"; and "RUN-TIME SCHEDULING SYSTEM" is changed to "RUN-TIME SCHEDULING SUBSYSTEM".

Conclusion

Applicant submits that the specification, claims and drawing figures are now in proper form.

Very respectfully,

A handwritten signature in black ink, appearing to read 'Jia Xu'.

Jia Xu, Applicant Pro Se
